

# FACTSHEET

Packaging solutions and sheets made of thermoplastic polymers

## TWO SITES. CONCENTRATED EXPERTISE.

### Meinerzhagen site

- Specialised, custom solutions and standard items in small and large series.

### Schkopau site

- High-performance extrusion of PP and PS sheets.

## SUSTAINABILITY PROMOTES INNOVATION

At Fernholz, our **220 employees** process around **2,000 tonnes** of plastic granulate each month to create approximately **2.5 billion units of packaging** each year.

## CERTIFICATES

- Environmental management system according to ISO 14001
- Energy management system according to ISO 50001
- BRC certificate for Meinerzhagen
- HACCP certificate for Meinerzhagen
- BRC certificate for Schkopau
- HACCP certificate for Schkopau
- GKV Code of Conduct certificate
- GKV Code of Conduct certificate
- IK "Zero Granulate Loss" initiative

## FOCUS ON MANUFACTURING

**plastic packaging**, for example yoghurt cups, trays and lids using injection moulding and thermoforming processes as well as **sheet extrusion**, in particular for the food and dairy industries.

### Cups

We manufacture injection moulding products or thermoform cups from polypropylene (PP), polystyrene (PS) and polyethylene terephthalate (PET).

### Trays

We produce rectangular and divided trays and large food service containers made from PP (microwave-safe) and APET (excellent oxygen barrier and transparent).

### Lids

Lids made of PS, PP and APET either round, rectangular or oval.

### Sheets

We extrude PS, PP, PET and multi-layer sheets as well as decorated/printed PS sheets in widths of 250 to 1,000 mm and with a thickness of between 250 and 1,800 µm.
