

FACTSHEET

Packaging solutions and sheets made of thermoplastic polymers

Core expertise

At Fernholz, around **200 employees** process **2,000 tonnes** of plastic granulate each month to create approximately **2.5 billion units of packaging each year**.

The company specialises in the manufacture of **plastic packaging** such as yoghurt cups, trays and lids. Operating in the food and dairy industries in particular, it uses injection moulding and thermoforming processes, as well as **sheet extrusion**.

Certificates

- Environmental management system ISO 14001
- Energy management system ISO 50001
- BRC certificate Meinerzhagen
- GKV Code of Conduct certificate
- HACCP certificate Meinerzhagen
- BRC certificate Schkopau
- HACCP certificate Schkopau
- GKV Code of Conduct certificate
- rPS process registered as a Novel Technology (NTN)
- RecyClass member

Two sites. Concentrated expertise.

Meinerzhagen

- Specialised, custom solutions and standard items in small and large series

Schkopau

- High-performance extrusion for PP, PS and rPS sheets, among others

PRODUCTS

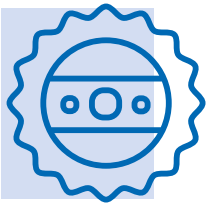

Trays

We produce rectangular and divided trays and large food service containers made from PP (microwave-safe) and APET (excellent oxygen barrier and transparent).

Cups

We manufacture injection moulding or thermoform cups from polypropylene (PP), polystyrene (PS) and polyethylene terephthalate (PET).

Sheets

We extrude PS, PP, PET and multi-layer sheets as well as decorated/printed PS sheets in widths of 250 to 1,000 mm and with a thickness of between 250 and 1,800 µm. We are long-standing suppliers of PPW-compliant sheets in the rPS 1.0/2.0/3.0 generations.

Lids

Lids made of PS, PP and APET either round, rectangular or oval.
